

Evaluation of Attainment of Program Outcomes, Program Specific Outcomes And Course Outcomes :-

At college level evaluation of attainment of program outcomes, program specific outcomes and course outcomes is done through direct method (Result Analysis) and indirect method (Student's feedback).Which helps to improve the education quality of college and graduates.

Direct Method :-

Preparation of learning outcomes across all the programs and courses. Program outcomes, Program specific outcomes and course outcomes are gathered for different courses .

Then calculations are done for measuring attainment of the outcomes and represented in result analysis of every department. Other ways are also used to measure attainment of outcomes such as collecting evidences on students learning directly,work submitted by students,skills,demonstrations,attitude etc.

The attainment of outcomes is calculated by using following formula,

Attainment of POs,PSOs and course outcomes of course at UG level :-

Attainment level in university Examination	80%
Attainment level in Internal Examination	20%

Attainment Ratio = Sum of marks (Internal/external)/ Total Student number

Good Attainment Score are more than 65.
