ABOUT INSTITUTE/SOCIETY

Ahmednagar Jilha Maratha Vidya Prasarak Samaj is one of the oldest & pioneering society / trust which have been promoting education since 1918. The Late Chhatrapati Shahu Maharaj of Kolhapur not only inspired but also financially supported the starting of the society. The progress started with the establishment Late Hutatma Karveer Chatrapati Chavthe Shivaji Maharaj Maratha Boarding in 1918. The Residential High school (earlier named as Tagore High school) was established in 1941. From this period onwards development started at a faster pace.

The main focus of the society/trust has been to provide education to the economically backward community and for the famine stricken and hilly regions. It has established a network of 89 educational units. This includes 12 Higher & Technical colleges, 25 Higher Secondary Schools, 48 Secondary Schools and 4 Primary & Ashram Schools, Law, Engineering, Management, throughout the Ahmednagar district that impart education in various fields like Arts, Commerce, Science, Education Computer Science & Hotel Management.

ABOUT COLLEGE

Shri Dhokeshwar College was established in 1994 on unaided basis with single faculty of Arts. The very modest objective of founders behind establishing this college in Draught-Prone Area like Takali Dhokeshwar village & its vicinity was to promote education among the deprived classes & especially the girl students, lacking opportunity at a convenient place.

It received permanent affiliation in 2004 from University of Pune now called as Savitribai Phule Pune University. After completing seven years of its existence & by giving out excellent results in the University Examination, Govt. of Maharashtra was pleased to extend 100% grant since Academic Year 2000-01.

College went through NAAC accreditation process in 2003. As result of it at its successive stages new faculties, courses were initiated like Science Faculty in 2008, Travel & Tourism in 2010, and Commerce Faculty in 2013. The college came to be recognized under 2 F &12 B by University Grant Commission since 2006. But, due to change in the name of college it got a new recognition on 14/04/2014. Meanwhile women's hostel was built with support of UGC grants. The college strives to develop all round personality of students and hence is very keen to provide coaching in curricular, co-curricular, extra-curricular activities. To provide for Whole Man is the objective of our institution. To be very modest, it won't be out of place to say that we have succeeded in achieving this goal to a certain extent.

1. Introduction:

The Constitution of India has placed 'education' as the fundamental right of every citizen of the country. Higher education, the pillar of career and leadership building, plays a vital role in the social and economic development of a society and the nation. Great role and responsibility is entrusted to the Higher Education Institutions (HEIs) in building strong leadership and well-knit society through excellence in academics, ethical curricula and community engagement. The purpose of education in general and higher education in particular is to facilitate actualization of human potential by making its stakeholders, particularly higher educational administrators, teachers, and learners, conscious of human values and professional ethics. Therefore, HEIs are required to create high quality practices and an environment that is supported with human values and professional ethics to ensure their dignity and integrity. Physical-psychological knowledge and financial infrastructure of HEI needs to grow with values and ethical practices. Handbook of 'Code of Ethics' describes the principles and guidelines to be followed by all the stakeholders of the HEI.

2. HUMAN VALUES:

Human values refer to the basic inherent moral inclinations towards kindness, honesty, loyalty, love, peace, sympathy, truth etc. that enhance fundamental goodness of human beings and society at large. They are the values that human beings cherish and hold in common, consciously and otherwise, in most of the places and times and practice them. Human values help in understanding the attitude, motivation, behaviour, and also influence one's perception about the world. They enable the interpretation of "right and wrong" and provide the ways to understand humans and organizations. The principal human values are discussed in brief as follows:

2.1. Love & Compassion: Love manifests in sincere care of others, kindness, empathy and compassion for all. True unconditional love leads to compassion. It may be seen in operation in human acts of generosity, mercy and charity.

2.2. Peace: Peace contains values like equality, humility, optimism, patience, self-confidence, self-control, self-esteem etc. Its scope includes peace at the levels of individual, society and the world.

2.3. Truth: Truth is eternal and unchanging, as it deals with ultimate and unchanging reality. It is marked with values like accuracy, fairness, honesty, sincerity, justice, fearlessness, integrity, quest for knowledge, determination, etc. In professional life, the simplest manifestation of truth is in sincerity that can be seen in terms of commitment to work.

2.4. Non-Violence: Non-violence refers to restraint from consciously doing any harm through one's thoughts, speech or action to any entity, living or non-living. Non-violence demands abstinence from hatred and nurturing love and compassion for all beings.

2.5. Righteousness: Righteousness is the backbone of core human values as it involves conduct of life and action by practicing propriety and decorum at every stage. It covers ethical guidelines, ethical behaviour and moral values.

2.6. Renunciation: Renunciation connotes caring attitude towards all living beings without any selfish motives. It is seen in austerity, self-control, and selflessness of a person.

2.7. Service: Service is an action performed out of love. It also stands for compassion and sacrifice for others. The value of service demands equanimity without any conditions or discrimination based on caste, creed, race, region and religion.

2.8. Peaceful co-existence: Peaceful co-existence describes cohesive and coherent relationships. It contains psychological and social values such as benevolence, compassion, consideration, morality, forgiveness, brotherhood, equality, perseverance, respect for others, environmental awareness, etc.

2.9. Discipline: Discipline indicates regulated values followed by the individual for all beings. It contains values like regulation, direction, order, etc. Values are to be learned through practices to form the foundation of strong human culture. Hence, the administrators and teachers in HEIs need to bear in

mind that their peers and learners learn values from their conduct and behaviour. Institutions having better human values flourish and get recognition.

- ❖ Quality Education and Research
- ❖ Striving for Excellence
- ❖ Strong Professional Ethics
- ❖ Student Centric Academic Environment
- ❖ Social Well-being and Development
- ❖ Respect for All

3. **PROFESSIONAL ETHICS:** Human values and professional ethics are complementary to each other. Whereas human values convey personal conviction, ethics describe the accepted principles and standards of conduct about moral duties and virtues as applied to an organization. Codes of professional ethics guide the stakeholders of an organization about the desirable and undesirable acts related to the profession. The underlying philosophy of having professional ethics is to make people follow a sound uniform ethical conduct. The success of an institution's mission and vision is driven by value-based ethical behaviour of its committed faculty members, officers, staff and students. Following are some of the vital components of professional ethics that professional organizations necessarily include in their code of conduct:

3.1. Integrity: Adhering to conduct of duties in righteous manner and in accordance with principles of honesty, trust, transparency and fairness.

3.2. Trusteeship: Operating in an efficient, ethical and true manner while ensuring group participation and a system of check and balances within an institution.

3.3. Harmony: Balancing the diversity and difference through a culture of tolerance, discussion and forgiveness among stakeholders.

3.4. Accountability: Establishing the environment of openness and trust to accommodate mistakes and to encourage individual in taking the responsibility of one's action.

3.5. Inclusiveness: Adopting standards, policies and procedure to promote and ensure equal opportunity without any discrimination against an individual or a group seeking education, employment, promotion and other activities in an institution.

3.6. Commitment: Dedicating to the vision and mission of the institution while cultivating one's knowledge, skills and attitudes to achieve excellence in due time and regulatory boundaries.

3.7. Respectfulness: Creating an environment of mutual respect, trustworthiness and quality interaction as well as fair participation of functionaries and beneficiaries of the institution.

3.8. Belongingness: Fostering a shared vision of institution to make everyone feel secure, supported, accepted and included.

3.9. Sustainability: Ensuring optimal resource utilization — economic, environmental and social — to achieve long lasting and safe future.
